

DHL Stafetten August 30th, 2023

True to tradition, the IT-University will participate in the world's largest DHL baton held in Fælledparken.

A baton team consists of 5 persons and the route is 5 x 5 km.

It is also possible to enroll groups who will walk 5 x 5 km on a separate route.

To increase the competition level, the students are also invited to participate.

Take the challenge and submit an overall instant registration of a team from your department or your study group, as well as a contact person and maybe a name for your team.

You can also sign up individually for the run or the walk and then we will try to set a team.

Sign up of team/person(s) as soon as possible - and no later than June 30th.
to Lisa in FM, email list@itu.dk

If someone needs motivation to participate (in addition to the health aspect) you can also look forward to a cozy evening in our own ITU tent and enjoy something nice to eat and drink.

Just bring the whole family with you to Fælledparken – it is a fun experience. The competition starts at 6 pm.

More practical information about the DHL baton, tent location etc. will be announced in August.
